The Hyperbaric Chamber: Science, Not Miracle

By Nina Subbotina

Createspace, United States, 2013. Paperback. Book Condition: New. 216 x 140 mm. Language: English . Brand New Book ***** Print on Demand *****. This book, useful for health care professionals, also familiarize patients with new avenues for treatment and will inspire them to consult their physicians about this promising treatment. The hyperbaric chamber became popular in the first half of the twentieth century because of its efficacy in treating decompression sickness, a life-threatening complication in divers. During the second half of the twentieth century hyperbaric oxygen treatment (HBOT) was studied and applied to many medical conditions, including such as gas gangrene, carbon monoxide poisoning, radiation necrosis, thermal burns, diabetic foot ulcers, and crush injury. Nowadays there are some authors who also report the efficacy of the hyperbaric chamber in treating Alzheimer's disease, multiple sclerosis, alcohol abuse, and a number of other illnesses. This volume (as also with Medicina Hiperbarica, Subbotina's book for physicians, written in Spanish), describes those pathologies whose treatment with hyperbaric oxygen has been endorsed by evidence-based medicine. Evidence-based medicine aims to apply the best available evidence gained from the scientific method to clinical decision making for the individual patient. Thus, this book reflects the current state...
