Politeness, coupled perhaps with ignorance and confidence in everything an educated Frenchman said on the pronunciation of his own language (a confidence which subsequent investigation has greatly shaken), prevented further discussion. Since that time, the writer has met many instances of Frenchmen correcting the consonant in a syllable, when it is the vowel which is faulty, and vice versa. This is all the more likely to occur when the consonant is a voiced one, and especially when it is what may be called a semi-vowel, as in this case. The real cause of complaint in the word in question was the second vowel, which is usually represented as 0. Probably if this Frenchman could hear the same word with a middle o, he would be satisfied with the l. In French the voice plays even a more important part in the l than in English. When the l is initial, keep the tongue in position and dwell a long time on the l before giving the vowel. It is well to exaggerate this at first. Thus practise: --l a, l a, l 0, l u, etc. (the line representing a lengthening of the consonant). This consonant sometimes loses its voice immediately after a voiceless consonant, as in peuple (pcepj). Two l's, when sounded at all as l, are...
