Reviews

If you need to adding benefit, a must buy book. It is really simplified but excitement from the 50 percent of your book. I discovered this book from my dad and i recommended this book to understand.

(Dorothy Sawayn)

CONTINUOUS TESTING

Createspace Independent Publishing Platform, United States, 2014. Paperback. Book Condition: New. 226 x 150 mm. Language: English . Brand New Book ***** Print on Demand *****.Continuous Testing provides a real-time, objective assessment of the business risks associated with an application under development. Applied uniformly, Continuous Testing allows both business and technical managers to make better trade-off decisions between release scope, time, and quality. Generally speaking, Continuous Testing is NOT simply more test automation. Rather, it is the reassessment of software quality practices-driven by an organization's cost of quality and balanced for speed and agility. Ultimately, Continuous Testing can provide a quantitative assessment of risk and produce actionable tasks that will help mitigate these risks before progressing to the next stage of the SDLC. What you'll learn You will learn how Continuous Testing can help your organization answer the following questions at the time of the critical go / no-go decision for a software release candidate: Are we done testing? Does the release candidate achieve expected quality standards? What are the quantifiable risks associated with the release candidate? How confident are we that we won't end up in the news for software failures? Who this book is for This book is written for business executives and development practitioners who need to achieve the optimal balance between speed and quality with software that interfaces with customers, and ultimately revenue. It provides a technical perspective on how to accelerate the SDLC and release with confidence. From Alan Zeichick, SD Times Ariola and Dunlop nail the target: It's all about risk. That's what insurance is all about, that's what attorneys are all about, that's the sort of decision that every business and technology manager makes all day, every day. We have to live with risk and make...
