Reviews

*A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.

It's not a bunch of theory; it doesn't challenge you to come up with your own settings or figure things out on your own. Instead, it does something that virtually no other Elements book has ever done - it tells you flat-out which settings to use, when to use them, and why. If you're looking for one of those "tell-me-everything-about-the-Unsharp-Maskfilter" books, this isn't it. You can grab any other Elements book on the shelf, because they all do that. Instead, this book gives you the inside tips and tricks of the trade for organizing, correcting, editing, sharpening, retouching, and presenting your photos like a pro. You'll be absolutely amazed at how easy and effective these techniques are - once you know the secrets. 471 pp. Englisch.
